EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Wood on 05/24/04.

In the claims

In claim 1;

line 18, after "inverting second type output port", insert – and coupled, at least indirectly, to the output terminal of the second device of the second pair of active devices --;

line 22, after "third pairs", insert – (i) --; and after "forms a separate second type input port", insert – and (ii) is configured for coupling to at least one of the output terminals associated with the first pair of active devices --.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The present invention is drawn to an amplifier utilizing a first pair of active devices, a second pair of active devices and a third pair of active devices recited in claims 1-3. None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: the combination structure of the first – third pair of active devices as recited in claim 1.

The prior art references submitted by the applicant on IDS form received on 7/31/03 was reviewed and considered. These references appear to be the best references with respect to the claimed invention and closely matched most of the references found during the examiner's searches. However, as noted above, the combination structure of the first – third pair of active devices is not disclosed.

Therefore, the claims are patentably distinct over all these prior art references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
